

Mississippi's Tree Registry

“A way to recognize trees that are notable and impacting our lives while honoring special people.”

Everyone is invited to join the search for Mississippi's trees with historic importance, interesting stories, planted in honor of an event or person, or simply big and beautiful. You may also name the tree for a special person of your choosing when you submit the listing. We will list this tree on our web site as well as the American Grove web site and mail a registration certificate to you.
